Editorial Suite

Truck driving especially during the outbreak of the COVID-19 pandemic took centre stage with many European countries experiencing a shortage of articulated vehicle drivers. In Nigeria, the effect of the pandemic was less damaging and as such, this special arm of vehicle driving remained untouched.

However, other claims truck driving is considered a special skill that earns drivers a huge amount of money in salary, in Nigeria it is an all-comers affair. Considering the need to have trained drivers with potential for employment globally, particularly in view of the shortages in Europe the Board in partnership with Federal Road Safety Corps (FRSC), National Union of Road Transport Workers (NURTW), National Association of Road Transport Operators (NARNO), Dangote Group and other stakeholders, rolled out the Articulated Vehicle Driving (AVD) under the National Skills Qualification Framework (NSQF).

The AVD was unveiled at a special public presentation in Abuja, with formalised training for truck drivers for national and international engagement. The initiative will place such driver at level three competency level of NSQF.

Our esteemed readers you have in this package NBTE’s call for an increase in funding for research development in Nigeria, news on FG approving the Youth Empowerment Programme (NYSE), signing of MOU with Dialogue Specialist Clinics Ltd, the Executive Secretary’s engagement with different groups and organisations, the centre spread photo news and other staff matters including marriages and birthdays. As usual your reference list of TVET institutions under the Board’s purview. Enjoy reading and relax with other rich segments.

NBTE UNVEILS TRAINING OF AVD QUALIFICATION

The National Board for Technical Education (NBTE) has unveiled a programme aimed at facilitating the training of Articulated Vehicle Drivers (AVD) for both local and foreign engagements.

Speaking during the public presentation in Abuja, the Executive Secretary NBTE, Prof. Idris Bugaje, said that the programme was based on Qualification Framework (NSQF).

He described Skills as the new global currency in employment and urged Nigeria vehicle driving training centres to take up the challenge.

"Local opportunities abound especially in mega infrastructural projects as the Mambila power project as well as the shortage of truck drivers in Europe and North America as a fallout of Covid 19. He said such countries with gaps to fill, Nigerian youth have to be trained and properly certified to seize these opportunities", he said.

The Executive Secretary called on all vehicle training providers to key into what he called "Low hanging fruits" immediately and create job opportunities for Nigerians locally and across the globe, saying that skills exports are now foreign exchange-earners in many countries and Nigerians should not be left out.

In his remarks Corps Marshal of the Federal Road Safety Corps (FRSC) Boboye Oyeyemi said the training initiated by the Board is a welcome development as it would improve driver education and enhance safety on Nigerian roads.

He commended the Board for publishing the directory on National Skills Qualification (NSQ) placing AVD on level 3.
FEDERAL GOVERNMENT APPROVES YOUTH EMPOWERMENT PROGRAMME

The Federal Government of Nigeria has given the Board an approval to begin implementation of Nigeria's first youths' skills empowerment programme. The approval which was conveyed in a letter with Ref. No.FME/TAPSE/17/18 dated 31st January, 2022 requested the board to identify one training centre in each of the six (6) geopolitical zones, for commencement of the NYSE programme and requested the German Government international Development Agency, the NBTE in collaboration with the National Council on Skills to quickly inspect centres earlier identified in Kano, Kaduna and Maiduguri to assess the facilities for effective and efficient training of the thousands of youths who the federal Government through its scholarship board (FSB) indicated interest to sponsor trainees who were not earlier captured in the mentioned states and Dangote Group programme.

The NYSE programme was approved by President Muhammadu Buhari's administration to facilitate effective technology transfer to Nigeria through a number of productive skills development. The beneficiaries of the training are expected to return to Nigeria after five years of rigorous training in Germany to bring back the expertise into the Nigerian industry.

Prof. Idris Bugaje stressed the Board's commitment to ensure success of the programme to enhance skills of Nigerian youths for economic growth and development.
FRSC BECOMES NOS AWARDING BODY

National Board for Technical Education says the Federal Road Safety Corp (FRSC) will be awarding body for the National Occupational Standard (NOS) level 3 under the National Skills Qualification Framework (NSQF) programme.

The Executive Secretary of the Board, Prof. Idris M. Bugaje revealed this when he led other members of the Board on a courtesy visit to the Corp Marshall of FRSC in Abuja.

According to Prof. Bugaje, NBTE would write it formally that, the FRSC should be the awarding body for the NOS level 3 under the NSQF programme.

"Under the NSQF, the person who provides the training does not give the certificate, this to ensure check and balance, unlike other skills Qualification where the trainer gives the certificate" Prof. Idris Bugaje explained that, it is FRSC mandate by law.

The Executive Secretary noted that, the purpose of the visit was to thank the Corp Marshall for the support provided during the development of National Occupational Standard NOS level 3 for Articulated Vehicle Drivers.

"We fell, we need to provide a platform for Nigerian youths and other graduates to be able to go through the training process to acquire a globally recognized certificate which they can use either in Nigeria and outside the country to get employment.

"This is part of what we believed, keying into the agenda of Mr President of uplifting 100 million Nigerians out of poverty in the next ten years"

"As the Corp Marshall may be aware, the Federal Government has approved the Nigerian Skill Qualification Framework (NSQF) since 2013 and formally launched in 2017 by the Minister of Education, Malam Adamu Adamu and we are moving around trying to promote the NSQF across all Sector Skill Councils"

"At the moment, we have 11 Sector Skill Councils and we are hoping that, one Sector Skill Council shall be the one on Vehicle Driving both Articulated and Non articulated and by the Act establishing the FRSC, Federal Road Safety Corp, we feel you are the ones who shall also come in, in driving SectorSkillsCouncil"

Responding, the Corp Marshall, Federal Road Safety Corp, Mr Boboye Oyeyemi commended the leadership of Prof. Idris Bugaje for all the laudable initiative.

"What you are doing now is long overdue, all vocational issues need certification and by law this is your statutory responsibility"

Mr Oyeyemi advised NBTE not to limit only to truck driving on the step taking so far, adding that, there are...
MINISTER APPROVES APPOINTMENT OF DIRECTORS, DEPUTY DIRECTORS, OTHERS

The Honourable Minister of Education Mal. Adamu Adamu has approved the appointment of seven substantive Directors. The Minister also approved Muhammed NorthEast Zonal office; Arc Kabiru Dayyabu Director Physical planning and Development; Mr Olubode D. Majiyagbe South-West Zonal office; Dr Musa Hatim Koko North Stella Adetola all of the Polytechnic Programmes Department; Rabiu Alhaji Yunusa Finance and Accounts Departments; Ibrahim Salihu of NBTE Clinic; Helen Abba Nom Iliya, Binta Galadima and Alfa Abdulrahman all of the Human Resources Department.

The approval which was conveyed to the officers in a letter dated 1st January 2022 stated that the promotion was part of the Board’s effort to reward excellence and to boost staff morale by encouraging staff to be dedicated.

Statistics show that the Executive Secretary’s office, Physical planning and Human Resources with eight staff each followed by Polytechnic Programmes with six staff, Academic Planning Research and Statistics with five staff, Finance and Accounts and Audit with three each, Procurement two while Monotechnic Department Programme Department and Vocational Technical and Skill Development Department have one each.

Below is the list of successful staff in the promotion as the staff upgraded to the next rank.

the promotion of 45 other senior staff of the Board and upgraded one staff to the next rank.

Those promoted to the rank of Directors include Mal. Garba Nalado North West Zonal office; Mal. Hussain Central Zonal office; Engr. Mrs Ngozi Okelekwe South-South Zonal office and Haj. Bilkius Salihu Ahmed Liaison office Abuja.

Others who were promoted to the rank of Deputy Directors include; Aminu Halilu and

NBTE MOURN OVER BRUTAL MURDER OF DEPUTY DIRECTOR

The Board was thrown into mourning over the loss of Alhaji Abdu Isa Kofar Mata who was killed in the ill-fated Abuja-Kaduna train attack. Kofar Mata who was until his death the Deputy Director, VT & SD was on his way to represent his department at the meeting of Management schedule for Tuesday, 29th March, 2022. The remains of late Kofar Mata had since been buried in Kano according to Islamic rites. Born on the 20th of January 1967, he joined the services of the Board on 27th August 2001 as Principal Programmes Officer and rose to the rank of Deputy Director on 1st January 2015. He was also appointed Head of Enterprise Institution Division (EID) on 1st June 2015. He left behind his aged mother, a wife and children.

Mohammed, Director, Servicom Suleiman Gwarzo and other staffs of the board.

NBTE LOSES FORMER DIRECTOR PROGRAMMES

The death has occurred of Prof. M.S. Abubakar, former Director Polytechnic Programmes. He died on the 21st January, 2022 at age of 68. The deceased who hails from Danja Local Government Area of Katsina State was born on 14th March 1954. He joined the services of the Board on 11th October 1999 on the transfer of service from Kaduna Polytechnic as Director Polytechnic Programmes and was also one-time Ag. Executive Secretary on the 13th March, 2010. He retired from the Board on the 1st of July, 2019 after 35 years of meritorious service.
NBTE SIGNS MOU WITH DIALOGUE GROUP OF COMPANIES

In an effort to provide staff of the Board with excellent and affordable health care services, the NBTE Consult Limited, a company vested with the responsibility of managing private investments of the Board has signed a Memorandum of Understanding (MOU) with Dialogue Clinic Limited a company providing health care services for over twenty years in Nigeria to take over the management of its newly upgraded clinic. The Executive Secretary Prof. Idris Bugaje who spoke at the occasion said apart from the efforts to raise the standard of Polytechnics, the Board is also committed towards the welfare of its staff to motivate them for higher productivity. He said the upgrade of the hospital to international standards for staff and their families to access quality and affordable health care services was one of the cardinal objectives of the ES.

The Executive Secretary of the Board Prof. Idris Bugaje expressed the hope that the management of the hospital by an experienced private company with very close monitoring by the Board’s Consult limited will enhance quality services to inspire hope in the staff and motivate them for enhanced productivity.

Health is Wealth
THE NMCN SEeks REVIEW OF CURRICULA

The Nursing and Midwifery Council of Nigeria (NMCN) has called for a review of the curricula of courses offered by colleges of nursing in the country. The Registrar of the Council, Dr. Faruk Umar Abubakar made the call during an interaction with the management of the Board at its headquarters in Kaduna. He said thousands of qualified nurses are leaving Nigeria to work abroad due to lack of recognition of their certificates particularly by regulatory bodies like the NBTE, pointing out that there is need to address the problem immediately for the nation to train a large number of nurses who will provide effective and efficient medical service to the increasing population of Nigeria.

Data available indicates that about twelve thousand nurses from Nigeria in recent times are currently in different countries offering health care services, the Executive Secretary of the NBTE Prof. Idris Bugaje says the council should not worry much as the board is trying its best to look into the issues very soon to compare notes with the council on earlier agreements to get a way forward for NBTE to begin visiting such institutions for proper accreditation and inspect the equipment and staff strength before taking any further action for the enhancement of quality teachings in colleges of nursing to graduate competent, trusted and discipline medical practitioners with genuine certificates to offer their services anywhere in the world.
NBTE ADVOCATES INCREASED FUNDING OF RESEARCH DEVELOPMENT IN NIGERIA

National Board for Technical Education (NBTE) has called for more funds to our TVET Institutions. He stressed the need for government to value the contribution of Polytechnic Polytechnics for possible partnership. He assured that with the support of the stakeholders, the Innovation would be produced on commercial scale.

FRSC BECOMES NOS AWARDING BODY

Continued from page 11
many artisans areas that need to be engaged to have the requisite qualification. "As you mentioned, UK up to now are still having problem of shortage of truck drivers, with our population, why can’t we start exporting Skill workers and Drivers" "The steps you have taken, you may not know what you have done now, but tomorrow, prosperity will judge and applauded what you are doing" According to him, "when Dangote Articulated Driving School is going to be open, we must carry the Executive Secretary along" "We presently have about 1071 driving and non is articulated" The Executive Secretary was accompanied by the Director Technical Vocational and Skills Department, Engineer ADK Mohammed, Deputy Director in charge of Skills Sulaimain Mohammed Yusuf, Director in Charge of Abuja liaison office Hajiyah Bilquis, Haj. Safiya Ahmad among others.
NBTE HOLDS CURRICULUM WORKSHOP ON ND AND HND CERTIFICATES

The National Board for Technical Education (NBTE) has organized a five-day workshop to review curricula for Petrochemical and Gas Processing Engineering Technology. While declaring the workshop open in Kaduna, the Executive Secretary of NBTE, Prof. Idris M. Bugaje said the purpose of the workshop was to review the curricula and enrich it with up to date knowledge and innovations that will enable the students to acquire the needed knowledge and skills obtained everywhere in the world. Prof. Idris Bugaje represented by the Director Academic Planning, Dr Fatima Kabir Umar who commended the effort of the resource persons during the pre-critique workshop for providing a document that will be the basis for the curricula workshop.

The Five-day workshop which took place at the NBTE Centre of Excellence (COE) in Kaduna drew participants from academia, experts from the Petrochemical and Gas Processing Engineering Technology Development sectors, oil and gas industry and other stakeholders.
The Executive Secretary National Board for Technical Education (NBTE) Prof. Idris Bugaje said Nigeria has about 90 million unemployed youths.

He stated this while speaking at the 5th Annual Lecture and Annual General Meeting of the Science and Technology Forum (STF) held at NBTE Centre of Excellence, so disclosing that there is a group of unemployed youths springing up in Kano called the anarchists, who have resolved to destroy Government installations.

According to him, there are 10 million out of school children, the majority of whom are “Almajirai” in the country pointing out that the high rate of unemployment is largely responsible for the security challenges bedevilling the northern part of the country.

Bugaje said the group is small for now but might grow to become another security threat to the country. If urgent measures are not taken by the government.

“The only solution to the high unemployment rate is for the government to ensure that the unemployed youths acquire skills,” he said.

While lamenting the high rate of unemployment he said the Nigerian number of large graduates with degrees and Diplomas from various tertiary institutions in the country are roaming the streets without jobs.

The Executive Secretary, therefore, urged the Federal Government to ensure that Skills Acquisition courses are given priority in tertiary institutions as a solution to the rate of unemployment in the country.

In his valedictory report, outgoing President of the STF Prof. Ibrahim Mohammed Dabo said the forum was established 20 years ago by patriotic Nigerian Scientists and Engineers of the Northern extraction for promoting science and technology for the development of the northern part of the country.

The National Board for Technical (NBTE) organised a workshop recently to review ND and HND Transport Planning and Management. The workshop which took place at the NBTE Centre of Excellence was sponsored by Oke Ogun Polytechnic representative of the Executive Secretary Mal. Ahmed Garba said experts from academia were brought together to look at transport Planning and Management to make them worthy of the participants to put in their best in the course of the assignment, stating that their invitation for the assignment would be seen as a call to national duty.

Representative of the NBTE ES Mal. Ahmed Garba and officials of NBTE with participants during the opening of the workshop.

ES NBTE with GIZ Head of Project, Mr. Tobias Wolfgarten and Officials of NBTE and GIZ during a meeting in Abuja.
NBTE SOLICIT NTA’S SUPPORT

The Executive Secretary of the National Board for Technical Education (NBTE) Prof. Idris Bugaje has solicited the support of the Nigerian Television Authority (NTA) and other Stakeholders in sensitizing Nigerians on the importance of acquiring Skills training. He stated this when he led other members of the Board on a courtesy visit to the Director General of the NTA in Abuja.

Prof. Bugaje explained that, NBTE had decided to make skills development its flagship, saying, ”We are making skills Development our flagship, we cannot do it alone Sir, we need NTA to give us the necessary support and publicity for Nigerians to key into skills training, because there is value in Skill labour”

Prof. Idris Bugaje expressed the tremendous effort of the NTA in promoting the country globally and informing Nigerians on the good work going on within the country. According to him, globally, skills is the currency of labour and we are confident, if NTA can key into skills development agenda, we are going to make tremendous progress.

He explained that ”we have developed what we called National Occupational Standard (NOS) for Articulated Vehicle Drivers to train Nigerians on heavy truck driving, because there is a lot the of skills gaps globally in that area”

He sited the example of the UK which he noted is in need of over 5000 truck drivers at the moment, just as Germany, Canada among others are equally in need”

”We believed, within the country, alot of the new infrastructural project of this Government such as Mambilla project require thousands of heavy truck drivers and unfortunately most of our heavy truck drivers in Nigeria today are not certified”.

He expressed fears that, alot of skills labour drivers will be imported from China especially for the Mambilla project and stressed the need for urgent development of National Occupational Standard (NOS) for Articulated Vehicle Drivers.

Responding, the Director General of the NTA Yakubu Ibn Mohammed who thanked the Executive Secretary for the visit, said part of the NTA mandate was to educate, inform and entertain as well as to propagate the aims and objectives of the Federal Republic of Nigeria.

Mohammed stated that, both NBTE and NTA have to work towards moving Nigeria to the next level, pointing out that no country can develop without Skilled labour.

The Director General expressed dissatisfaction with the army of graduates seeking white collar jobs instead of acquiring skills to contribute their quota to nation building.

He gave the assurance that, NTA would continue to do it best in supporting the aims and objectives of the Board. needs to know about".
The National Board for Technical Education (NBTE) has dragged Mssrs D. B. Mangal to the Appeal Court over the ownership of Murjanatu House, Abuja.

The ES who disclosed this, said that the Board was working to retrieve the property which was formally occupied by the private developer.

He said D.B Mangal had dragged the Board before the Court on the claim that its fundamental human rights had been breached when NBTE tried to recover the property in November 2021.

He explained that the Board was only given one day notice for appearance in court on the 25th February 2022 barely one working day notice which in the Board’s opinion was unjust.

He further stated that the court had on Monday 28th February 2022 delivered its judgement in favour of D.B Mangal pointing out that the certificate of occupancy on the land was issued to D.B Mangal Nigeria Limited in August 2006.

He also said that the Special Presidential Investigation Panel for the recovery of public property in June 2019, recovered and handed the land, including the structure (Murjanatu House) back to NBTE.

He added that on assumption of duty as the Executive Secretary of the Board in April 2021, he sought the approval of the Minister of Education Mal. Adamu Adamu to enforce the panel’s decision that we got approval and accordingly notified the private developer, D.B Mangal Nigeria Limited of our intention and on November 11th 2021, the Board successfully took possession of the property,” he said.
The Executive Secretary, Prof. Idris Bugaje has commended the effort of the Federal Road Safety Corps (FRSC) in ensuring safety ICT as we saw at the FRSC will reduce the dangers of the road the programme staff are exposed to, pointing out that most of the things we go to verify, we He disclosed that the Board is working closely with the FRSC in the area of Articulated Vehicle Driving (AVD) a team visited the Dangote training on Nigerian roads.

He made this commendation during the induction of the NBTE Special Marshal Unit, pointing out that the deployment of the technology in its activities is also commendable. According to him, “using can read it virtually through (ICT) we are working on that, I think that is going to improve our service delivery,” he said.

He said the Board will look into the possibility of addressing the FRSC model in deploying ICT for its operations.

Centre in Ajaokuta along with the staff of the FRSC who are trying to encourage other training Centres to come up so that Articulated Vehicle Drivers can fill the skills gap.

Bugaje thanked the FRSC for the cooperation given to the Board, hoping it will be taken to a greater level.

**RICE HUSK GASIFIER STOVE**

This low-cost and clean-burning stove uses rice husk as fuel where rice husk is abundant and accessible. It is estimated that, one ton of rice husk has a direct energy conversion of about 23 tanks of 11kg LPG fuel thereby going a long way in saving the environment. The production of combustible gases, which include carbon monoxide and hydrogen, takes place by oxidizing the biomass fuel with a limited amount of air. Gasification of rice husk is achieved by controlling the air flow with a small fan to provide clean, cheap and sustainable form of energy for cooking.

**PROTECTIVE HELMET**

Cow horn fibre and resin were used as raw materials in the fabrication of the protective helmet. The natural fibre used is eco-friendly. Light weight, strong, renewable, cheap and bio degradable providing sufficient mechanical properties at acceptable low price level. This fabricated composite gained importance due to its non carcinogenic and bio degradable nature. The fabrication is a means of converting waste to wealth thereby reducing the amount of waste in our environment and eliminating the pollution occasioned by burning of the cow horn.
